

TRANS ALLOY

Shown with optional extras

Solutions in Transport Design

SIGNATURE MK2

- We use our unique universal mounting system which has been engineered approved and tested
- 4 tonne rated aluminium flooring system has been tested to carry Evenly Distributed 4 tonne Loads
- Heavy duty integrated corner posts supporting 65mm or upgrade to 75mm contoured headboard
- All hinges and heavy duty corner fasteners are 'dichromate' plated to protect against Australia's harsh climate conditions
- Checker plate mudguards are standard
- Heavy duty 40mm continuous rope rail system so tie down is easy at any point. Easily fits a steel cap work boot
- Choose from a select range of colours to trim your tray to match your corporate colours (Single Stripe only)
- LED braking light mounted in headboard
- Optional 'slide-away' tool draw
- Optional boxes mounted under tray utilising all space available keeping tray free to carry that big load
- Transalloys 30 years experience
- Our high standard and quality
